DETAILED ACTION

1. This office Action is response to Applicants' communications filed on 02/07/2005. Claims 1,3-36 are pending in this application. Claim 2 is canceled.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1,3-5,34, drawn to organizing a plurality of documents, classified in class 707, subclass 10.
- II. Claims 6-16,28-33, and 36, drawn to user interface including Proximity detection, classified in class 345, subclass 587.
- III. Claims 17, 18-22, and 35, drawn to tracking user's bookmarks, classified in class 709, subclass 245.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I - III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from

each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as lacking user interface including Proximity detection, tracking user's bookmarks, particulars. Invention II has separate utility such as lacking the tracking user's bookmarks, particulars.

See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for one group is not required for another group, restriction for examination purposes as indicated is proper.

6. A telephone call was made to John j. Dresch on 03/29/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with CFR 1.48(b) if one or more of the currently named inventors is no longer an

inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad A Siddiqi whose telephone number is (571) 272-3976. The examiner can normally be reached on Monday -Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John A Follansbee can be reached on (571) 272-3964. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
